PLEASE NOTE: In areas routinely exposed to wind gusts in excess of 60 mph, it may be necessary to consult a local design professional to determine whether this product is suitable for your application. It is required that the glass be supported mid span with a 'glass centre support'. For additional design information, and the use of glass centre supports on your Wind Wall project, please consult your authorized ProBuilt Dealer. Building codes may vary. Always comply with all applicable building codes. Please ensure to check your local building codes and building permit requirements prior to installation. Please check areas to be drilled are free from utilities, services and hazards. No member of Alco Ventures Group of Companies or the Dealer shall be liable for any loss or damage resulting from the improper installation or use of this product. If any member of Alco Ventures Group of Companies or the Dealer becomes liable for any loss or damage, the aggregate liability of Alco Ventures company shall be limited to the retail purchase price of that product. For further information, please consult your authorized ProBuilt Dealer.

Failure to follow these instructions could result in serious injury or death!
